

Capabilities Statement

Sunset Ecological Solutions, LLC (Sunset) is a trusted leader in biological and environmental consulting and regulatory compliance solutions serving landowners, developers, construction firms, municipalities, and legal professionals throughout the San Francisco Bay Area and California.

Core Services

- Biological resources assessments
- Stream assessments and wetland delineations
- Federal and State environmental resources permit applications
- Wetland delineations
- Fish and wildlife surveys (nesting bird, bats, raptors, etc.)
- Bay Conservation and Development Commission and Coastal Commission permitting
- CEQA/NEPA biological analysis
- Rare and endangered plant and wildlife surveys and permitting
- Eelgrass and marine habitat surveys
- Construction and post-construction compliance and environmental monitoring

Differentiators

Centrally based in San Francisco Bay Area, Sunset is a nimble firm with deep expertise in California's environmental landscape and strong relationships with regulatory agencies. We deliver tailored, cost-effective solutions that streamline permitting, reduce risk, and keep projects on-time, on-budget, and in full compliance.

Experience

Woodside Elementary School Creek Bank Stabilization, Woodside, CA | Ongoing

Client: Woodside Elementary School District

Provided biological and permitting support for creek bank repairs at an active school. Authored a biological resources assessment, prepared a biological assessment for ESA Section 7 consultation, and managed agency coordination to align engineering goals with regulatory requirements. Budget: \$94,000.

On-Call Environmental Services, Town of Hillsborough, CA | Ongoing

Client: Town of Hillsborough

Provides on-call biological consulting for residential projects, including wetland and stream delineations, biological assessments, CEQA support, and mitigation planning. Coordinates with Town planning staff and applicants to streamline environmental review. Budget: \$49,900.

Granada Community Park and Recreation Center, Granada, CA | Ongoing

Client: Granada Community Services district

Supporting construction of a new community park involving realignment of two drainage channels. Providing permitting consultation, aquatic resources delineation, and compliance support for the project team. Budget: \$70,000.

Stone Pine Cove Farmworkers Housing Project, Half Moon Bay, CA | 2025

Client: City of Half Moon Bay

Conducted daily pre-construction surveys for California red-legged frog and San Francisco garter snake. Oversaw implementation of avoidance measures, documented findings in daily compliance reports, and coordinated with CDFW and USFWS regarding special-status species. Budget: \$95,000.
